

Crouse-Hinds® Molded Products Micro-Mini™ Connectors

Micro-Mini™ Connectors

Crouse-Hinds new and improved Micro-Mini™ connectors meet or exceed current industry standards including the current SAE H1738-2 specifications. They are specifically designed for reliable, trouble-free service under the most severe conditions.

**NEW
FROM
CROUSE-HINDS**

Check out these Features and Benefits:

- ✓ Epoxy-coated coupler that passes 500-hour salt-spray test per Mil-Std 202F for exceptional corrosion resistance.
- ✓ Heavy-duty polyurethane contact insert provides superior strength for your most abusive applications.
- ✓ Vibration-resistant ratchet coupler design prevents loosening in severe, high-vibration applications.
- ✓ Superior side load strength in excess of 100lbs. surpasses current industry standards by five times.
- ✓ Easy stripping PVC jacketed cable allows fast stripping with simple hand tools.
- ✓ New indicating arrow for easy identification and proper keyway alignment.
- ✓ Watertight gasket meets IP-67 and NEMA 6P rating.
- ✓ Molded-to-cable connector junction securely bonded for excellent connector-to-cable reliability.
- ✓ Optional-new high-flex robotic cable provides superior flexing in applications where combined continuous twisting and bending stresses occur.
