

# PRE-formance™ *Assemblies*

Most commonly used assemblies pre-fabricated to save you time and money.

**COOPER**  Crouse-Hinds

PRE-formance™ Assemblies provide the speed and convenience of pre-fabrication with the simplicity of one catalog number ordering and receiving.

Available from factory stock or custom assembled with a quick turn-around time to meet your tightest job schedule requirements!

Cooper Crouse-Hinds PRE-formance *Assemblies* deliver the most efficient rough-in assemblies by combining the features of our innovative, labor saving patented products with the convenience of quick availability. Simplifies ordering and receiving, eases installation, improves job site efficiency & reduces labor costs! Available from factory stock or assembled from stock components for quick turn-around to meet your tightest job schedule requirements.

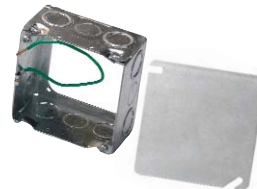

## PRE-formance Assemblies with Open Back Boxes (4" Square 2 1/8" Deep) & Traditional Boxes (4" Square 1 1/2" & 2 1/8" Deep)

### UNI-MOUNT™ ASSEMBLIES -

Uni-mount™ Cover, 4" Square Steel Box, 8" Insulated Solid Ground Wire with Ground Screw or Clip and SmartGuard™

	Box Type	Mud Ring Depth	One Gang Catalog Number	Two Gang Catalog Number	Carton QTY
	Open Back Box* (2-1/8" Deep)	5/8" Raised	TP3140DPF	TP3640DPF	25
3/4" Raised		TP3240DPF	TP3740DPF	25	
Adjustable		TP31403PF	TP36403PF	25	
TP403 (4 Square 2-1/8" Deep)	5/8" Raised	TP32403PF	TP37403PF	25	
	3/4" Raised	TP31404PF	TP36404PF	25	
TP404 (4 Square 1-1/2" Deep)	5/8" Raised	TP32404PF	TP37404PF	25	
	3/4" Raised				

### Utilizing innovative components!

#### Open Back Boxes

Maximize working area to reduce wiring time and eliminate interference problems. Eliminates the need for disassembly at the job site. All open back box assemblies are shipped with unattached TP472 flat, blank back covers

#### Adjustable Plaster (mud) Rings

Patented adjustable mud ring provides job site flexibility and ensures proper installation of devices in walls.

#### Patented Uni-Mount™ Covers

Patented Uni-Mount Covers combine the features of a plaster ring with box mounting capability all in one universal bracket. Rigid bracket design eliminates the need for far-side support and allows use of both sides of the wood or metal stud.

#### Standard on all 5/8" and 3/4" PRE-formance Assemblies!

#### SmartGuard™ Protective Plates

These high impact, router resistant protection plates keep electrical and communication boxes clean and free from debris during construction projects, greatly reducing expensive and non-productive call backs and reworks.

### SINGLE SIDED† DIRECT MOUNT ASSEMBLIES -
